

PARAGON

state of the art precision...

Paragon Precision Ltd, two divisions, one goal, to assist you in realising your precision manufacturing project.

Since 1969 Paragon Toolmaking has been a leading designer and manufacturer of press tools, specialist machined parts and precision engineered components.

Paragon Pressings, formed in 1987, has developed into our Sheet Metal Division, recognised as one of the leading suppliers of precision sheet metal work, producing a wide range of highly accurate components, fittings, enclosures and precision fabricated products.

From our state of the art manufacturing facilities based in the international port of Hull, products are shipped worldwide to customers who choose Paragon for our 'total service solution' approach to their project; from initial enquiry through, design, prototyping, initial manufacture and final production, all under stringent quality control procedures.

A philosophy of continual investment in the latest technology provides Solidworks 3D design facilities, CNC & EDM machining, combined CNC laser cutting & punching, CNC bending, robot welding and an in-house Nordson powder coating plant.

We have the experience, skills and capacity to partner you and help facilitate your project, which ever industry sector you represent.

Paragon, state of the art for precision engineering...

OVERVIEW

- Product Design
- Prototypes
- Precision Machining
- EDM
- Punching
- Bending
- Laser Cutting
- Robotic Welding
- Powder Coating
- Toolmaking
- Fitting & Part Assembly
- Tool Try-out
- Part Pressing
- Inspection
- After Sales Service
